MISSION STATEMENT

To support legislation and regulations beneficial to federal civilian employees and annuitants.

To promote the general welfare of federal civilian employees and annuitants and potential annuitants.

To cooperate with other organizations and associations in furtherance of these general objectives.

VISION STATEMENT

To ensure that:

NARFE is recognized as the association devoted to serving and protecting the earned entitlements, rights and benefits.

Great work is done to help preserve those rights and benefits.

All members know that their needs and wants are being taken to the highest levels of government.

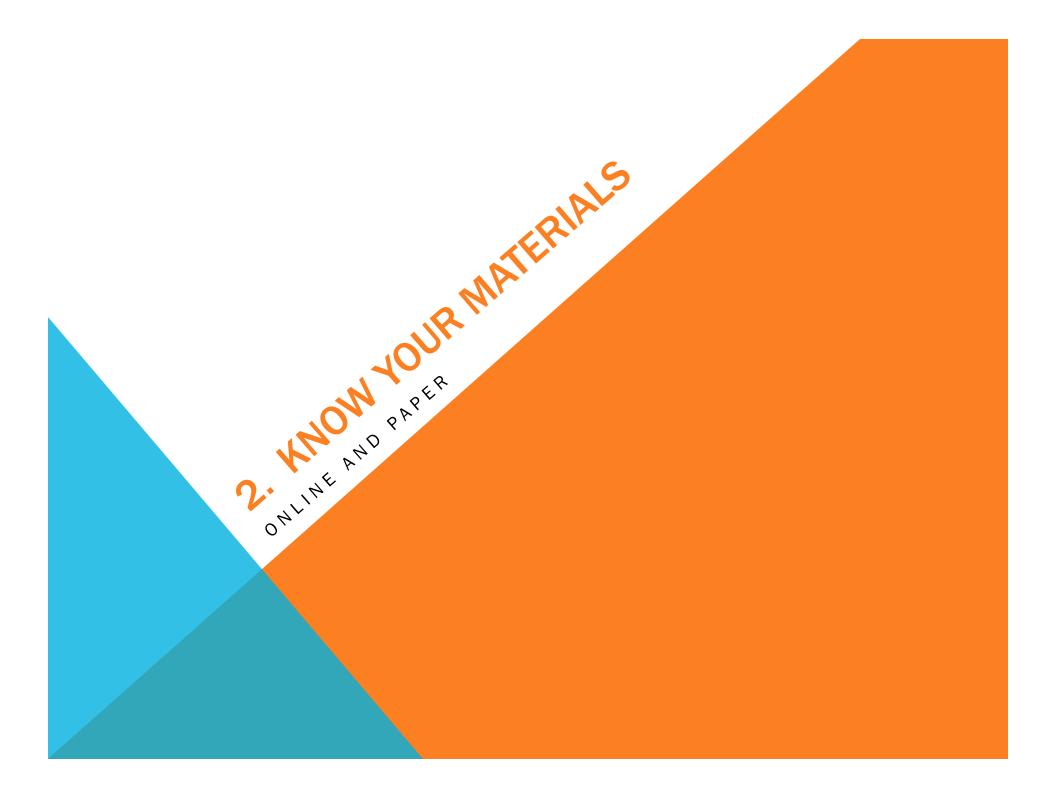

Realizing that NARFE began in 1921 because Feds have no written contact with their employer and at the time insignificant benefits.

The Importance of a Professional Government Workforce

ACOMPLISHMENTS

NARFE'S LEGISLATIVE ACCOMPLISHMENTS 114th CONGRESS (2015-2016) REVIEW

In the 114th Congress, the federal community continued to face assaults on its earned benefits. As a result, NARFE's legislative efforts focused on defeating propersits attacking federal employees and retirees, as well as working toward solutions to other concerns facing NARFE members. Here are highlights of the Association's accomplicitments as the 114th Congress (2015-2016) concluded in December 2016.

Thearted ALL attempts by Congress to cut the samed pay and benefits of federal employees and retirees.

- The House of Representatives' Fiscal Year (FY) 2016 budget resolution contained eight provisions totaling \$318 billion in cuts to the federal community. These cuts included raising retirement contributions of current federal employees, reducing the size of the federal workforce, increasing enrollees' share of Federal Employees Health Benefits Program (FEHBP) premiums and reducing the return of the Thrift Savings Plan's (TSP) most stable investment vehicle, the G Fund. Ultimately, none of those cuts were passed into law, thanks to the hard work of NARFE and its members.
- The Senate failed in its attempt to pay for highway improvements on the backs of the federal community. As the Senate debated a six-year highway bill in 2015, some senators suggested offsetting the cost by changing the rate of return of the TSP's G Fund, rendering the fund nearly worthless, as the return would be lower than the average savings account. Such a change would have cost TSP participants \$32 billion. NARFE members and lobbyists sprang into action, and Congress was forced to find other sources of funding.
- A budget agreement offsetting sequestration cuts for two years did not take from federal employees or retirees. After the federal community contributed more than \$120 billion to pay for other priorities in recent years, NARFE members have been sounding the drumbeat: Enough is enough! A two-year budget deal was signed into law at the end of 2015, increasing spending levels by \$80 billion without offsets to the federal community, even after the initial budget called for \$318 billion in cuts. NARFE's message is resonating on Capitol Hill.

Successfully mitigated disproportionate and unfair increases in Medicare premiums.

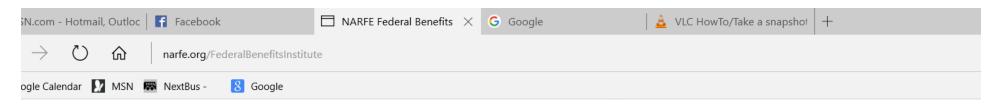

- Without a cost-of-living adjustment (COLA) in 2016, millions of Medicare enrollees not "held harmless" would have seen their premiums increased by 52 percent, unless Congress or the administration took action. NARFE began sounding the alarm on this issue on the Hill and with the administration before any other organization. Due to NARFE's lobbying efforts and the messages sent to legislators by thousands of NARFE members, a compromise fix was included in the two-year budget agreement, limiting the 2016 premium increase to 15 percent for those not held harmless.
- In the face of a small retiree COLA in 2017, which did not trigger the budget deal's provisions, NARFE secured the introduction of legislation to mitigate the effects of Medicare premium increases for those not held harmless, in a situation similar to 2016. While this legislation was not considered by Congress, premium increases previously had been limited (to 10 percent, as opposed to about 20 percent) through action by the administration due to concerns raised by NARFE and its coalition partners.

Protected postal retirees' health benefits through the Federal Employees Health Benefits Program (FEHBP).

 Postal reform legislation in both the House and the Senate would have required all eligible postal retirees and their spouses to enroll in Medicare or forfeit their earned retiree health benefits coverage through the FEHBP. NARFE worked tirelessly to oppose these provisions, supporting amendments that would prevent loss of health insurance coverage entirely, maintain choice for postal retirees

(well over \$200 per month for a memied couple) As a lifelong member of NALC from 1966 to present, imagine my shock at wotching our own union President Relando testify before Congress in FAVOR of this bill. What a shareful sot for our own representative to support this bill. I have written to him and have not received an explanation nor an answer.

I strongly urge everyone to contact your congress person as well as Mr. Relando to let them know how you feel.

Maiding vital changes when updating federation bylaws

Federations are now in the process of updating their byleves to reflect OCM (optional chapter membership) and OMOV (one member, one vote). As part of the process, I suggest they be revised to reflecte on advocacy. As part of their reflects, I suggest DVP job descriptions be changed to comerching which is mission based, like advocacy. I suggest that the serves DVPs cover be changed from chapter based to congrussional district based. I suggest that CDLs be established where they do not already addr.

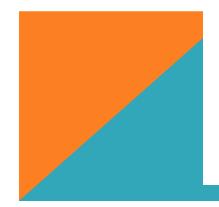

I also suggest that federation conventions and other meetings and publications be refocused on planning for and coordinating advocacy actions within each state and with HC.

Why not? If not now, when?

NARFE Matching Funds Program Update

E very year, NARFE budgets a designated amount of money for the anjews purpose of assisting chapters and federations with recruiting. Chapters and federations may apply for the funds and get up to 50 percent of the total expenses for a qualifying recruiting event from NARFE.

Over the past year, with the encouragement, support and approval of the National Secretary/Densurer, we have made some changes to the Matching Funds Guidelines in order to clarify the parameters of the program and provide a way to evaluate the effectiveness of the efforts we are supporting. Like any grant

program, NARFE wants to shoure that the events it supports achieve the dealered goal of driving member recruitment by developing prospects and memberwhips,

With that in mind, the Matching Funde Program is intended to support activities or events that put chapter recruiters in a position to angage current federal employees and/or annuitants in a conversation about membership. Local advertising cumpaigns may be considered, but require guidance from Hondquarters.

If you are interested in tapping into the Matching Funds Program, please take note of the following:
